

Exclusive Hygiene Mattress

With  **Lentex**[®]

A preventive standard mattress.

Järven Health Care

Exclusive

The Exclusive Hygiene Mattress is a mattress with 3 layers and a firm core surrounded by a soft surface layer, volumetric weights 23 + 40 + 23 kilograms / m³. The layers are glued together to prevent them from sliding apart. The surface layer Lentex® surrounds the core of the mattress. Ulcer category: 2.

OUR UNIQUE SURFACE LAYER LENTEX®

This mattress is equipped with Järven's unique surface layer Lentex® which is laminated directly onto the foam core. This means that it has no seams or zippers.

The surface layer is available only in a fresh white colour which facilitates contamination detection on the surface of the mattress.

Cleaning of the mattress is done by wiping and disinfecting the mattress surface directly.

Active Membrane technology allows the mattress to breathe and reduces the risk of fluid penetration.

Our unique surface layer Lentex® has been developed, alongside the foam core, to reduce the pressure against the patient and provide excellent comfort.

FACTS

Item no.	Sizes
5700	190-205 x 80 x 13 cm
5701	190-205 x 85 x 13 cm
5702	190-205 x 90 x 13 cm

Mattress weight

Approx. 7-9 kilograms depending on length and width (standard sizes).

Warranty – Mattress core

3 years for structural fatigue of the mattress core's B value in accordance with SS 876 00 11.

Warranty – Lentex

5 years for the Lentex surface adhesion.

Fire standard

The mattress has been tested and meets the requirements of SS 876 00 01, test method EN 597-1&2.

User weight

Up to 150 kg. Read more about user weight in our instruction manual.

Recycling

The mattress and its cover are fully recyclable and should be sorted as combustible waste. No dismantling is required.

Labelling: Manufacturing year, month, week, GS1 number fulfilled standards and placement in the bed.

Results of pressure measurement

Mattress	Large indenter 300 N	Large indenter 600 N	Small indenter 40 N
airO	28.5	43.1	45.2
Soft Euroflex	28.9	61.1	52.1
Waterlily	30.1	55.9	56.4
Exclusive	35.9	53.0	59.2
Soft Comfort	37.5	53.6	60.5
Comfort	41.9	54.5	64.5

A low value means a low pressure against the body, all values in mm Hg. For heavier users it is especially important that the pressure shown under "large indenter, 600 N" is as low as possible.

FACTS ABOUT PRESSURE MEASUREMENT

To bypass the individual impact from different people, Swerea IVF has developed pressure indenters that simulate the shapes of selected parts of the human body. By applying a load equal to that of a human body of average weight on these indenters, it is possible to objectively evaluate different mattresses and beds using pressure mats. This method of measurement is described in the Swedish standard with the designation SS 876 00 13

Classification of pressure results for mattresses in new condition.

Load	Extra low	Low	Medium	High
Large indenter 300 N	<30.0	30.0-34.9	35.0-39.9	40.0-44.9
Large indenter 600 N	<45.0	45.0-52.9	53.0-60.9	61.0-68.9
Small indenter 300 N	<45.0	45.0-52.9	53.0-60.9	61.0-68.9

This product is part of our hygiene mattress range with Lentex®
